

安庆市人民政府外事办公室

March 23, 2020

To Canada-China Friendship Society

Dear President Amelia Choi,

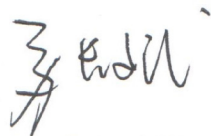

At present, the prevention and control situation of COVID-19 in China continues to improve. But the situation of the pandemic spreading all over the world is very worrying.

We are aware that Ontario has declared a state of emergency. All public facilities and places are shut down and schools are closed. We are very concerned about what you are undergoing now. If you need any help, please let us know and we will do our best. I believe that under the leadership of your government, you will surely win the battle against the COVID-19 and restore normal order to your life.

Let's work together for a better future!

All the best!

Su Changbin

Director of Foreign Affairs Office of Anqing Municipal Government
