## Thank You Letter To CCFS

Beijing, April 30th, 2020

Dear President Amelia Choi and Friends of CCFS,

On February 8, 2020, when the Covid-19 pandemic began to rampage in China and the Chinese people were fighting hard against the disease, you and your colleagues sent us your sympathy and strong support by donating medical supplies for the medical institutions in China, which represents your deep affection and friendship with the Chinese people. We are greatly moved and appreciate your help from the bottom of our hearts.

For the past two months, the Chinese government and the people of the whole country have been fighting against the Covid-19 pandemic with strong unity and

firm will and have achieved phased victory with the active support and precious assistance from the international community and overseas compatriots. At present, China has restored its overall economic construction and is trying its best to provide support and help within its capabilities to the countries in the world, while still vigilant in prevention and control against another outbreak of the disease in China.

Looking back on the hard times we have gone through during the past few months, we will never forget the strong sympathy and selfless support by *Canada-China Friendship Society* for the Chinese people during the most difficult time of our battle against Covid-19. At this time, we think of Dr. Norman Bethune, who came to China over 80 years ago to help us in the War against the Japanese Aggression. Bethune Spirit has been written in the history books, which will be a great inspiration for generations to come.

Let us continue to work hard to contribute to further promotion of friendship between China and Canada.

We look forward to welcoming you to visit us again.

President YuanYonglin
